Hamburg, 9th July 2009

Dear Mr. Schwärzler,

it is already a week since the large sales force conference 2009. The daily routine again stands at the centre of attention. However, we would like to look back today at the days in Pertisau once more.

We remember two very intensive days in which the management and employees of our company without exception felt comfortable in Pertisau. Even the not so summerly weather could not take away the significantly felt feeling of togetherness, the team spirit and the enjoyment of the congress.

You and your team have played a significant part that we could return to Germany with all these impressions. Thanks to you everything went smoothly from arrival until departure. The room tombola, the allocation of the luggage, the carrying out of the great games; of which none went wrong, everything was perfectly organised by you and your team and implemented with friendliness and helpfulness.

Without your personal engagement, our event would not have developed the atmosphere which it did. We sincerely thank you for this on behalf of our company and all of the guests. We wish you and your agency all the best for the future and every success with further "Rent a village" - projects.

Yours sincerely,

Gert Schloßmacher

Hans Joachim Kasperski
