Strong as one - winners together. This was our motto this year for our group-wide Sales kick-offs in the Alpbachtal / Tyrol. And this was the motto from the beginning our cooperation with the friendly rent-a-village team. A team, which simply captivates with its creativity, commitment and above all professionalism and in close cooperation with the villagers an incomparable and special Ambience designs.

Our event was a complete success and our goal was achieved: 280 satisfied and highly motivated Employees coming from a weekend with intensive training in an impressive Environment, plenty of team sport and a lot of fun together at your work place return and start the new year motivated

Working together is simply fun and shows once again that you are strong on your own but in the end only wins in a team.

Many thanks to our wonderful rent-a-village team and we look forward to the next event!
