— **Letter of reference**

"We would like to thank the agency xnet kommunikation ag for the professional and personal support of our management meetings in 2017 in Trittenheim and 2018 in the vineyards in Fellbach.

Both the rent a village concept and the strategy hike were a special experience for our participants.

Relevant content and the exchange among each other could be conveyed and linked with each other in connection with nature.

— The creative planning of xnet continued from the beginning to the end of the events. The support left nothing to be desired."
